## J.P. Morgan Military Transition Programme Dublin

The breadth of opportunities and amount of support make our post-military program unique. We take the time to get to know you, understand your skills and your career goals before placing you in a role. In September, we offer insight evenings to help you learn more about the firm, understand the opportunities available and discover how you can make a meaningful contribution across our organization.

We hire veterans of all backgrounds, ranks and experiences for roles across the firm, including project management, risk, compliance, finance, operations, technology and business management. You'll make an impact on our business from the beginning by helping us solve real business challenges and taking responsibility for projects from beginning to end.
